

CLASS 2 PLATE

BURGLARY TOOL RESISTANT SAFE

AVAILABLE OPTIONS :

- Electronic or 4-wheel combination lock.
- Second electronic or mechanical lock.
(for safes 20-5/8" high inside and up).
- Timelock (for safes 35" high inside and up).
- Anchoring Holes (1, 2 or 4 holes).
- Shelf (Adjustable or Fixed).
- Special Interior (As per customer needs).
- High grade polished stainless steel cladding on inner compartments' doors.
- Recessed Coin Racks

SAFE TYPE :

Plate (steel) safe.

CERTIFICATION :

Manufacturer certified.

PROTECTION TYPE :

15 minutes door protection against common hand or picking tools, mechanical or portable electric tools, grinders, drills and pressure devices.

BODY CONSTRUCTION :

Made of 1/2" thick high tensile steel.

DOOR CONSTRUCTION :

Made of 1" thick laminated high tensile steel.

BOLTWORK :

For safes 11-3/8" to 20-1/2" high inside: 2 plated steel locking bolts Ø1".

For safes higher than 20-5/8" inside: From 3 to 7 plated steel locking bolts Ø1-3/8".

In order to delay any attacks, our ingenious boltwork design makes multiple attacks necessary. In fact, actually attacking and forcing one bolt will result in driving all the other locking bolts in the opposite direction and will make further attacks even harder.

CLASS 2 SAFES ARE EQUIPPED WITH :

- Highly efficient bolt detent system that keeps the bolts retracted when the door is opened and never fails to engage them automatically when the door is closed.
- Superior quality relockers.
- Drill resistive hard plate.
- Stainless steel push plates for safes 19-5/8" high inside and up.
- One (1) Ø 1/4" alarm hole.

STANDARD LOCK :

One (1) Group 2 S&G 6730 3-Wheel combination lock with spy-proof dial.

MINIMUM INSIDE DIMENSIONS :

11-3/8" High X 13" Wide.
