- Complete inner wiring of alarm components.
- Shelf (Adjustable or Fixed).
- Special Interior (As per customer needs).
- High grade polished stainless steel cladding on inner compartments' doors.
- Recessed Coin Racks.

SAFE TYPE :

Composite safe.

CERTIFICATION :

Manufacturer certified.

PROTECTION TYPE :

Provides a balanced (6 sided) outstanding protection against fire and tool attacks.

BODY CONSTRUCTION :

Made of 5" thick steel and special high resistance concrete.

DOOR CONSTRUCTION :

Made of 5" thick steel and special high resistance concrete.

BOLTWORK :

From 3 to 7 plated steel locking bolts (Ø1-3/8"). In order to delay any attacks, our ingenious boltwork design makes multiple attacks necessary. In fact, actually attacking and forcing one bolt will result in driving all the other locking bolts in the opposite direction and will make further attacks even harder.

CLASS 5 SAFES ARE EQUIPPED WITH :

- Highly efficient bolt detent system that keeps the bolts retracted when the door is opened and never fails to engage them automatically when the door is closed.
- Superior quality double relocker.
- Drill resistive hard plate.
- Stainless steel push plate.
- One (1) Ø 1/2" alarm hole.

STANDARD LOCK :

One (1) Group 1 S&G 8550 manipulation-proof 3-Wheel combination lock with spy-proof dial.

MINIMUM INSIDE DIMENSIONS :

19-5/8" High X 15" Wide.
